EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edward M. Kriegsman on January 30, 2006.

The application has been amended as follows:

claims 8-12, 14, and 19-22 are canceled.

The following is an examiner's statement of reasons for allowance: claims 1-5, 7, and 15-18 are considered allowable over the prior art because the claimed structure including at least two irradiation modules including a baseplate, plurality of baseplate mounted UV radiation sources with a UV transparent plate surrounding the UV sources on three sides in an airtight fashion with spatial variability such that one module has an axial movement capability is not found in the prior art either singly or in combination. However the independently claimed single module, to which the claims are canceled by this amendment can be broadly and reasonably construed, in light of applicants' specification, can be considered to be obviated by the prior art of record, including other art cited directly in or from that art. The closest prior art is considered those used in rejecting the claims in prior Office actions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Gravini whose telephone number is 571 272 4875. The examiner can normally be reached on normal weekday business hours (east coast time).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ehud Gartenberg can be reached on 571 272 4828. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
